1949 PRODUCTION OF NEW
FARM EQUIPMENT UNDER WAY

40 NEW AGRICULTURAL MACHINES PLANNED -- Leningradskaya Pravda, No 11, 14 Jan 49

Agricultural machine-building enterprises will produce 40 new machines and implements for agriculture and the timber industry in 1949.

The Lyubertskiy Plant imeni Ukhtomskiy will manufacture new types of mowers. One of these, the KS-10, will be produced for work in the steppes and will be twice as productive as the ordinary mower.

The Sibielskaya (Siberian Agricultural Machine-Building) Plant will bring out a new tractor-drawn seeder for planting grain and grass which can sow up to 15 hectares per day. The Tashkent Agricultural Machine Plant will produce a new vertical-spindle cotton-picking machine, which can do the work of dozens of workers and will to a large extent solve the problem of mechanical cotton picking.

ECHEMLADZIN PLANT PRODUCING PLANS -- Kommunist, No 99, 28 Apr 59

The new Echmiadzin Machine Plant started production at the end of the fourth quarter 1948. It is equipped with the latest machinery and has a machine shop, foundry, forge, and a tin welding shop. The plant produces plows and spare parts for plows, does all possible repair of agricultural machines and implements, and produces metal goods in popular demand. The plant is now preparing to produce the OX-5 and PPO-23 plows.

KUYBYSHEV PLANT ADDS DISK SOWERS -- Pravda, No 38. 7 Feb 49

The Khybyshev Plant imeni Stalin is now producing tractor disk covers in addition to its previous production of tractor wheels, gears, and other parts.
